MSc Finance and Financial Technology (FinTech)

FinTech is a rapidly expanding sector where technology and innovation are generating powerful new ways to deliver financial services. This degree will prepare you for the jobs of the future.

**Highlights**

- 9 or 12-month taught programme at the ICMA Centre, with extensive access to world-leading dealing rooms and facilities.
- Develop programming skills and put them into practice to solve real world problems.
- Become a leader in a dynamic and rapidly growing space within Finance.
- Excellent employability opportunities as companies look to recruit candidates with a strong FinTech background.

"The practical elements of the course enabled me to apply the concepts I was introduced to in lectures to the real world."

"The support from the staff is invaluable. No problem is too big or small."
